From the desk of John Miles

March 5<sup>th</sup> 2009

To Whom It May Concern:

### **American Recovery and Reinvestment act of 2009**

#### **Manufacturers Certification Statement – Qualified Energy Property**

Further to the enacting of the Recovery and Reinvestment Act, February 2009, Federal tax credits are provided when a high efficiency Water Heater is installed in the home during 2009 and 2010.

Quietside Corporation, based in Santa Fe Springs California, states that the models listed below are eligible for tax credits as a high efficiency water heater by meeting or exceeding the “Energy Incentives Part III” criteria, where “a natural gas, propane or oil water heater that has an energy factor of at least 0.82 (A credit of 30% of installed costs (up to a maximum of \$1500) is provided for under the provisions of this act)

<b>Model #</b>	<b>Energy Factor (EF)</b>	<b>AFUE</b>
<b>DPW-099A (Natural Gas or Propane fired)</b>	<b>0.83</b>	<b>90%</b>
<b>DPW-120A (Natural Gas or Propane fired)</b>	<b>0.85</b>	<b>90%</b>
<b>DPW-199A (Natural Gas or Propane fired)</b>	<b>0.82</b>	<b>90%</b>

I certify that to the best of my knowledge and belief that the above is true and correct.
